IMPERIAL VALLEY COLLEGE
MATH 090 – INTERMEDIATE ALGEBRA
Course Syllabus – Summer 2010

Instructor: Dr. Alejandro Cozzani
Phone: (760) 355-5720
E-mail: Alex.Cozzani@imperial.edu
Webpage: www.imperial.edu/alex.cozzani
Office: 2767
Office Hours: No office hours during summer
Holiday: July 05, 2010

Code: 30108
Class Meetings: Monday through Thursday from 2:00 PM to 4:50 PM
Room: 2725

Authors: Lial, Hornsby, McGinnis.
MathXL Code: XL0I-611G-901Y-19I2

Credit Units: 4.0

Prerequisite: Math 080 with a grade of “C” or higher or appropriate placement.

Course Philosophy: Topics covered include real number system, polynomials, rational expressions, exponential and radical forms, linear and quadratic equations, relations, functions, and graphs, systems of equations and logarithmic and exponential functions.

Measurable Course Objectives and Minimum Standards for Grade of “C”
1. Demonstrate an understanding and comprehension of basic ideas and elementary concepts of algebra.
2. Demonstrate skills in solving first degree equations and inequalities.
3. Demonstrate an understanding of polynomials, skills in the operations with polynomials, and the factoring procedure.
4. Demonstrate an understanding of skills in operations with the simplifications of rational expressions.
5. Demonstrate an understanding of skills in operations with and simplifications of exponential expressions.
6. Demonstrate proficiency in solving problems when dealing with linear equations and their applications.
7. Distinguish the various approaches in solving quadratic equations.
8. Demonstrate an understanding of functions and relations.
9. Demonstrate the ability to solve linear systems of equations algebraically and graphically.
10. Demonstrate proficiency to graph, solve, manipulate, and apply exponential and logarithmic functions and equations.

Institutional Student Learning Outcomes (ISLOs)
1. ISLO1 = communication skills;
2. ISLO2 = critical thinking skills;
3. ISLO3 = personal responsibility;
4. ISLO4 = information literacy;
5. ISLO5 = global awareness

Student Learning Outcomes (SLOs)
1. Students will solve a word problem using the quadratic formula.
2. Students will be able to recognize and solve a system of equation in an applied setting.
3. Students will be able to recognize and plot graphs of exponential and logarithmic functions.
4. Students will be able to manipulate rational expressions and solve equations involving them.

Grading Criteria
Course must be taken on a “letter-grade” (LG) basis only.

Grading Policy
The student’s grade will depend on the following areas:

Tests: 60%

<table>
<thead>
<tr>
<th>Final Exam:</th>
<th>30%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework</td>
<td>10%</td>
</tr>
</tbody>
</table>

Extra Credit: 0%

<table>
<thead>
<tr>
<th>Calendar (tentative)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Day</strong></td>
</tr>
<tr>
<td>-------</td>
</tr>
<tr>
<td>June 21</td>
</tr>
<tr>
<td>June 22</td>
</tr>
<tr>
<td>June 23</td>
</tr>
<tr>
<td>June 24</td>
</tr>
<tr>
<td>June 28</td>
</tr>
<tr>
<td>June 29</td>
</tr>
<tr>
<td>June 30</td>
</tr>
<tr>
<td>July 01</td>
</tr>
<tr>
<td><strong>July 05</strong></td>
</tr>
<tr>
<td>July 06</td>
</tr>
<tr>
<td>July 07</td>
</tr>
<tr>
<td>July 08</td>
</tr>
<tr>
<td>July 12</td>
</tr>
<tr>
<td>July 13</td>
</tr>
<tr>
<td>July 14</td>
</tr>
</tbody>
</table>
Class Rules and Expectations

1. Students are expected to be actively involved in the learning process so failure is not a good choice; apply yourself, study, do not give up on the first try, attend class regularly, ask for help when needed, and always do your best!

2. Students are expected to attend class meetings regularly. After the fourth absence, if the student does not drop the class via Webstar, he/she will receive an “F” as final grade; so it is the student’s responsibility to drop before the deadline.

3. ABSENCES. What constitutes an absence? Not showing up to class during a regular class meeting, arriving more than 20 minutes after the beginning of the class, leaving more than 20 before the end of the class, or disappearing for 20 minutes or more without a valid excuse.
   a. Example: Class starts at 10:00 AM and ends at 12:00 PM. If you arrive after 10:20 AM you are absent. If you leave before 11:40 AM you are marked absent. If you leave the room for more than 20 minutes for whatever reason, you are absent.

4. TARDIES. What constitutes a tardy? Arriving within the first 20 minutes after the beginning of the class or leaving within the last 20 minutes before the end of the class (3T = 1A).
   a. Example: Class starts at 10:00 AM and ends at 12:00 PM. If you arrive between 10:01 AM and 10:20 AM you are marked tardy. If you leave between 11:41 AM and 12:00 PM you are marked tardy as well as if you “disappear” from the room for no more than 20 minutes (i.e. having lunch). If you need to use the restroom, you are expected to return within a reasonable time period.
   b. If you are late to class, please enter the room quietly, do not distract your classmates, and avoid talking to them to find out what is going on in class (it is your responsibility to arrive on time). On the second offense you will be dropped from class.

5. If a student reaches the fifth absence after the deadline, his/her grade will be reduced one letter grade for each subsequent absence.
   a. Example: your current grade is an “A.” On the 5th absence you will get a final grade of “B.” On the 6th one, your grade is “C,” and on the 7th one, a “D.” Beyond that, your final grade is “F.” Exceptions include-for example- hospitalization for several days and with appropriate documentation.

6. Deadline to drop the class with a “W” is July 20, 2010. Late drops on graded classes will require that the student receive an F.

7. Class materials such as a notebook or binder with lined or quad ruled paper, pen, pencil, scientific calculator, and the textbook will be brought to every class meeting. It is highly recommended to bring the PowerPoint presentations printed to all class meetings.
8. It is up most important that students review the material to do well on exams. Students are encouraged to form study groups to meet regularly to keep up with assignments and to study for tests and final exam.

9. Students will not be allowed to make up any exam or the final exam.

10. No photocopied textbooks are allowed. No audible pagers, cell phones, and music players (iPods, MP3, etc) allowed during class time. Please have them towed in an invisible place. You will be dropped on your second offense for disturbing the class in this manner.

11. No food or drinks are allowed in the classroom.

12. No children are allowed in the classroom.

13. Absences attributed to the representation of the college at officially approved conferences and contests and attendance upon field trips will not be counted as absences (this includes sports). However, the student is responsible for notifying the instructor and for the work done in class. If your absence coincides with an exam, it is student’s responsibility to contact the instructor via e-mail or by phone before the following class meeting to make it up. Failure to do so will result in a “zero” for that particular exam.

14. Classroom Etiquette-In class, it is expected that you will treat your instructor and each other with respect. Do not talk when the instructor is lecturing except to ask a question of the instructor or answer a question posed to the class. Feel free to ask questions as needed and listen when someone else is asking a question because you may have the same one.

15. Discipline: you need to understand that this is a college class so appropriate behavior is expected at all times (i.e. not speaking out of turn, raise your hand to talk and wait until acknowledged, paying attention, avoid side comments, not answering your cell phone in class, working in assignments for another class, etc.). For this reason, no discipline problem will be tolerated.
   a. First offense: warning.
   b. Second offense: student will immediately be dropped from the class.

16. Academic Integrity- If a student is found cheating in a test or assignment, he/she will receive a grade of zero for the test. If cheating is repeated, he/she will receive a grade of F for the course or may be immediately dropped from the class.

17. Any student with a documented disability who may need educational accommodations should notify the instructor or the Disabled Student Programs and Services (DSP & S) office as soon as possible. DSP&S, Room 2117, Health Sciences Building, (760) 355-6312.

Homework
The purpose of homework is to provide students with sufficient practice to master all topics and to do well on tests and the final exam. Use MathXL (all assignments are listed online as well as deadlines).

It is student’s responsibility to complete them on or before the deadline regardless whether he/she is absent. Please keep in mind that after the deadline you will not be able to work on that specific assignment because the program will lock it automatically. Each assignment must be at least 90% complete to get full credit.
