**Paper Topic**

The paper should be 4-6 pages double-spaced size 12 Times New Roman font. You are to pick one of the readings from the class. It can be from any section that we covered or will cover in class. You will then briefly write on what the specific Philosopher’s position is in their paper. What are they saying and what is their reasoning etc? Then the bulk of the paper will be you, arguing what you think are the flaws and strengths of the argument. You will use your own thoughts with reason backing it up as to why you think the position in the paper is great, good or just plane wrong. The exact paper topic is up to you as long as it pertains to one of the readings on the syllabus.
