Paper Topic

The paper should be 4-6 pages double-spaced size 12 font in Times New Roman. You are to pick one of the reading from the class I.E. Descartes *Meditations*, John Searle *Minds, Brain and Programs* etc. It can be from any section that we covered or will cover. You will then briefly write on what the specific Philosophers position exactly is in their paper. What are they saying and what is their reasoning etc? Then the bulk of the paper will be you giving me what you think are the flaws and strengths of the argument. Lastly you will give me some of your own thought with reasons backing it up to why you think the position in the paper is great, good or just plane wrong. The paper topic leaves a great deal up to you on what you want to do.
