Philosophy 106 Writing Project

Write a 4-6 page paper on this topic. The topic is: Is Abortion Morally Permissible?

Think about the different moral theories we have discussed in the class. How would they deal with abortion?

Your paper should be typed, double-spaced. Supply footnotes or endnotes for all quotations, or cite author and page number with a bibliography. Make sure you cite all sources which you have used in the process of writing the paper. Failure to cite your sources can lead to zero points for the paper.

You may wish to consult the books which I have placed in the Reserve Book area of the Library. The books are Social Ethics and Applied Ethics.
